

FAASTeam presents:

Switching to ICAO Flight Planning (FAA Form 7233-4)

The FAA has announced a mandatory transition to the International (ICAO) Flight Plan Form 7233-4 that will occur in January 2017. The new ICAO Flight Plan form is already required to obtain certain types of in-flight ATC services and routing. In January it will be used for all IFR and VFR flight planning, replacing the domestic flight plan form we have used for decades.

Join SCFC Flight Instructor Brian Eliot for a seminar that provides crucial understanding of how to complete the many new data fields in Form 7233-4. He will describe the background leading up to the change and what sorts of pilot services are based on information provided in the flight plan. He will also present typical airplane avionics configurations and how to translate those to the navigation and surveillance profiles encoded in the flight plan form.

Finally, he will briefly review what automation the flight planning service providers are making available to pilots to assist them through this transition.

Any questions, contact us at (650) 946-1700 or info@sancarlosflight.com.

San Carlos Flight Center is committed to promoting safety in general aviation through our evening safety seminar programs. Space is often limited so it is important to sign up early through

Representative DAN KELLY DYER

the FAA event notification system at FAASAFETY.GOV.

SCFC members may choose to watch the seminar live over the web at home. Contact your SCFC member service rep at (650) 946-1700 to confirm secure online access to any particular seminar.

Directions: Pilots who fly in should park in transient parking on the opposite side of the field and expect to walk about 10 minutes (.5 mile) to the Flight Center. Suite 215 is upstairs in the northwest corner. On occasion, rides may be prearranged through San Carlos Aviation and Supply.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
